

# Welcome to Too Groovy!

In 2003, Too Groovy Salon officially launched a [Natural Hair Care Movement](#). Today, there are thousands of women who have discovered and experienced the beauty of healthy, soft and silky hair with our signature services, such as [Hydrating Steam Therapy](#).

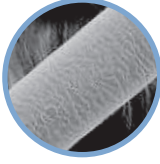

Too Groovy Salon founder Robin D. Groover revolutionized natural hair care in 1998 by creating a step-by-step process called [Ceramic Fusion Styling](#) to address the #1 cause of hair breakage - dryness. This [chemical free approach](#) utilizes ionic technology and has become the new standard of excellence. Too Groovy Salon Experts provide optimal healthy hair care in ceramic fusion finishes, custom color blends, signature design lines, and terrific texture transformations.

Begin your journey and experience the beautiful, fabulous and groovy hair that you have always dreamed of.
